

Compleo eCHARGE+ app Data sheet

Find charging points, handle authentication and pay for the charging process – all in one free app. With eCHARGE+, your customers have access to a network of charging stations that is growing every day. Private users can also control their wallbox at home and manage charging data. On request, the eCHARGE+ app is also available with the look & feel of your brand.

Highlights

- ✓ Flexible filtering: Overview map with filters according to individual requirements (e.g. plug or payment type)
- ✓ Dynamic and in real time: Availability of charging points at a glance
- ✓ Cost transparency: Binding price display at the start of the charging process
- ✓ Convenient authentication options: Via contract, voucher or direct payment (PayPal, Visa, MasterCard, giropay)
- ✓ Always up to date: View active charging processes live (charging progress, amount of energy charged)
- ✓ With direct payment: Optional invoice transmission after the charging process
- ✓ For private users: Installation of a private eBOX and activation of authentication options (e.g. RFID charging card)
- ✓ White-label: Offer the app with your branding
- ✓ Intuitive user guidance
- ✓ Optional: Charging network definition for your own customers

Certificate
