

Compleo eMARKETPLACE CPO Data sheet

With eMARKETPLACE CPO, you can easily maximise the use of your charging infrastructure. This is ideal for both charging network operators and companies intending to open their charging points to staff and guests. Enable users to charge at your site at their own driving electricity rates.

Highlights

- ✓ Opening charging stations: Maximise the number of users with roaming and direct payment
- ✓ All in one contract: Easy access to one of the largest charging networks in Germany
- ✓ Individual pricing model: Invoicing per charging process or amount of energy (kWh)
- ✓ Convenient invoicing: Compleo takes care of receivables management towards e-mobility providers (EMPs), you receive the credit from Compleo directly to your account
- ✓ Direct payment: Ad-hoc charging via Visa, MasterCard, PayPal and giropay
- ✓ Free of charge: Included in the Compleo eOPERATE software service

Certificate

As of: 03/2022
Document Center:

Compleo eMARKETPLACE CPO Datenblatt

Compleo backend: Basis for Compleo eMARKETPLACE CPO

Maximum scalability: Microservice architecture enables rapid integration of a large number of charging points and rates

Software as a service: Cloud-based services enable low investment risk, transparent costs, and accelerated implementation

Maximised operational security: Compleo cloud services and server centres are certified for operational security in accordance with ISO 27001

Service guarantee: 24/7 incident management

Features

Flexible pricing: Maintain prices at charging point level, change prices daily, price AC & DC charging points differently

Direct payment: Activate ad-hoc charging (via PayPal, Visa, MasterCard, giro pay) per charging point and enable spontaneous customers to charge

Convenient invoicing: Compleo takes care of marketing and receivables management towards e-mobility providers (EMPs), you receive the credit from Compleo directly to your account

Set up access restrictions: You decide whether your charging points are accessible to the public or with restrictions (e.g. staff charging in the company car park)

Roaming: To expand your reach even more, you can market your charging infrastructure via roaming platforms (e.g. Hsubject)

Costs and use

Participating in eMARKETPLACE requires an existing eOPERATE professional contract

Free for CPOs: eMARKETPLACE CPO is already included in the price of eOPERATE (€ 6.90/month)

Use of third-party hardware possible

Charging points with eMARKETPLACE are currently only available in Germany and the UK
